What is the Koga City Children's Plan?

Read
14:38

The Basic Law on Children say's that cities and towns are required to provide children and youth with support and support for child rearing, and to think in advance and plan a course of action, to provide support and support for child rearing. That's what the Child Plan is.

Univ Std

But it is the adults who make the plans, and they don't take into account the opinions of the children and us college students, do they?

Read
14:40

That's not true. To create this plan, we surveyed over 2,000 children and used group interviews to get their opinions.

Of course, we have taken these important opinions into account in the creation of this project.

J.H.S Std

I had that chance. I wish I could have participated.

Read
14:45

No problem! The Basic Act on Children's Rights should hear from children so you can continue to express your opinions.

working adult

22 year old working adult but I'm still a child!
I wish people like me could have a chance to express my opinion.

Read
14:51

Don't worry! The Basic Act on Children's Rights does not divide children by age.

In making this plan, we are also listening to the opinions of adults who are working.

Read
14:53

So what does the Koga City Children's Plan summarize? Let's take a look at what the City of Koga considers important, and what initiatives the City of Koga is particularly focusing on!

1 What we value (Basic Philosophy)

That's what we're trying to "be" with this plan.

Let the smiles of all children and youth bloom!

the child is the center, and the you are the center

~"Warmth, Trust, Communication, and Listening" to bring 'the best' into shape together.~

I see

2 A path to achieve what you care about (Pillars for realizing our basic philosophy)

There are more than 100 initiatives on these five paths,
We're going to achieve what we care about.

town planning
for children

Children'
Rights

Growth,
development

**What we
value**

Children's zest
for life

Home,
Community

Hmm

3 Initiatives to be focused on (priority measures)

1 To tell others what you think (expressing children's opinions)

We will allow you to say what you think and discuss with us about community development in various ways (in person, on the Internet, by letter)!

This is it!

2 Enhancement of a place to stay

We will start an initiative to support people who create a "place where children can relax" (a place to stay) outside of school and home!
And if there are children in need of such a place, we will try to help each other!

I'd like to help!

3 Creating Places to Play and Grow

We will research how to create places for children to "play" and "learn" in parks and community centers, and actually start building them!

Good!

Koga City Children's Plan
